

CSPP/IMAPP USERS' GROUP MEETING

27-29 JUNE 2017 UNIVERSITY OF WISCONSIN-MADISON
www.ssec.wisc.edu/meetings/cspp/2017/

We are pleased to include the CSPP Geostationary (Geo) direct broadcast satellite community this year, including GOES-16 and Himawari-8 users.

The Third Community Satellite Processing Package (CSPP) and International MODIS/AIRS Processing Package (IMAPP) Users' Group Meeting will again bring together the worldwide community of CSPP Low Earth Orbit (LEO) and IMAPP users to discuss issues relevant to reception, processing, and applications of data acquired by direct broadcast from Suomi NPP, Terra, and Aqua.
