CSPP Users' Group Meeting 2019
Chengdu, China

Outline

- 1** NOAA JPSS M-band and I-band Active Fires
- 2** NOAA GAASP
- 3** Conclusion

NOAA JPSS M-band and I-band Active Fires

Actually two separate packages utilizing the VIIRS imager:

- The NESDIS Data Exploitation (NDE) operational version of the 750m "M-band" algorithm.
- The NESDIS/STAR version of the 375m "I-band" algorithm.
- The NOAA JPSS Active Fires Team is led by Ivan Csiszar at the NOAA NESDIS Center for Satellite Applications and Research (STAR).
- NOAA's VIIRS Active Fire product development has been done through collaboration between STAR, the University of Maryland and the NASA VIIRS Land Science Team.

NOAA JPSS M-band and I-band Active Fires

Actually two separate packages utilizing the VIIRS imager:

CSPP VIIRS Active Fire Package

Overview...

- CSPP: Community Satellite Processing Package
- Provides single command-line interface to both M- and I-band AF packages
- Required ancillary (land sea mask) automatically generated and cached.
- Specification of inputs is flexible, works hard to construct valid input datasets for as many granules as possible.
- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

CSPP VIIRS Active Fire Package

Overview...

- CSPP: Community Satellite Processing Package
- Provides single command-line interface to both M- and I-band AF packages
- Required ancillary (land sea mask) automatically generated and cached.
- Specification of inputs is flexible, works hard to construct valid input datasets for as many granules as possible.
- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/mband_2/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/iband_2/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/mband_2/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/iband_2/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/mband_2/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/iband_2/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/mband_2/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/iband_2/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Installation and Usage...

- Installation is just unpacking a tarball and setting an environment variable...

```
tar xf cspp-active-fire-noaa_1.1.0.tar.gz
cd cspp-active-fire-noaa_1.1.0
export CSPP_ACTIVE_FIRE_HOME=$PWD ; cd ..
source $CSPP_ACTIVE_FIRE_HOME/cspp_active_fire_noaa_env.sh
```

- Typical M-band invocations are:...

```
cspp_active_fire_noaa.sh -M /data/viirs/mband
cspp_active_fire_noaa.sh -M /data/viirs/GMODO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/mband_1 /data/viirs/mband_2/SVM05*.h5
```

- Typical I-band invocations are:...

```
cspp_active_fire_noaa.sh /data/viirs/iband
cspp_active_fire_noaa.sh -M /data/viirs/GITCO*.h5
cspp_active_fire_noaa.sh -M /data/viirs/iband_1 /data/viirs/iband_2/SVI05*.h5
```

- Accepts NOAA CLASS or CSPP (direct broadcast) VIIRS SDR files (HDF5 file format).

CSPP VIIRS Active Fire Package

Outputs...

- Both the M-band and I-band AF packages output NetCDF4 and text files with the detected fires:

`AFMOD_j01_d20181006_t1911037_e1912264_b04575_c20181220232748500094_cspp_dev.nc`
`AFMOD_j01_d20181006_t1911037_e1912264_b04575_c20181220232748500094_cspp_dev.txt`

and...

`AFIMG_j01_d20181006_t1911037_e1912264_b04575_c20181220232803741292_cspp_dev.nc`
`AFIMG_j01_d20181006_t1911037_e1912264_b04575_c20181220232803741292_cspp_dev.txt`

- Text file output is only generated if at least one fire is detected.
- NetCDF4 files are always generated.

CSPP VIIRS Active Fire Package

Outputs...

- Both the M-band and I-band AF packages output NetCDF4 and text files with the detected fires:

AFMOD_j01_d20181006_t1911037_e1912264_b04575_c20181220232748500094_cspp_dev.nc
AFMOD_j01_d20181006_t1911037_e1912264_b04575_c20181220232748500094_cspp_dev.txt

and...

AFIMG_j01_d20181006_t1911037_e1912264_b04575_c20181220232803741292_cspp_dev.nc

`AFIMG_j01_d20181006_t1911037_e1912264_b04575_c20181220232803741292_cspp_dev.txt`

- Text file output is only generated if at least one fire is detected.
- NetCDF4 files are always generated.

CSPP VIIRS Active Fire Package

GCOM-W1 AMSR2 Algorithm Software Package (GAASP)

Overview...

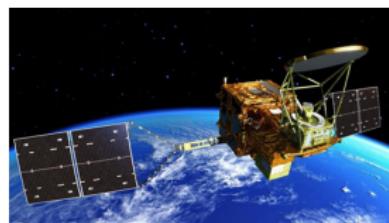

- GCOM-W1: Global Change Observation Mission - Water 1.
- AMSR2: Advanced Microwave Scanning Radiometer 2.
- The GCOM-W1 mission of JAXA is dedicated to sea surface monitoring and to contribute to observations related to global water and energy circulation.

GCOM-W1 AMSR2 Algorithm Software Package (GAASP)

Overview...

GAASP Modules...

- Preprocessor: BT bias corrections, other stuff
- Ocean
- Precipitation
- Soil
- Snow
- Sea Ice
- Postprocessor: HDF5 to NetCDF

Conclusion

CSPP NOAA Active Fires

- Released version 1.1, April 2019
- Added I-band support
- Added JPSS-1 / NOAA-20
- Rationalized text output for downstream applications

Conclusion

CSPP NOAA Active Fires

- Released version 1.1, April 2019
 - Added I-band support
 - Added JPSS-1 / NOAA-20
 - Rationalized text output for downstream applications

Conclusion

CSPP NOAA Active Fires

- Released version 1.1, April 2019
- Added I-band support
- Added JPSS-1 / NOAA-20
- Rationalized text output for downstream applications

Conclusion

CSPP NOAA Active Fires

- Released version 1.1, April 2019
- Added I-band support
- Added JPSS-1 / NOAA-20
- Rationalized text output for downstream applications

Conclusion

CSPP NOAA GAASP

- Upcoming release, version 1.0, Fall/Autumn 2019
- All modules implemented, currently in testing
- Multicore support implemented, currently in testing
- Will likely include rudimentary plotting capability

Conclusion

CSPP NOAA GAASP

- Upcoming release, version 1.0, Fall/Autumn 2019
