

1. Mary Did You Know?

Larry did you know, as a baby boy,
You'd search the moons for water.
Larry did you know, from the asteroids,
You'd name your sons and daughters.

Did you know, as a baby boy,
You'd study planets, gaseous.
You'd track the clouds on Saturn,
On Neptune and Uranus.

Larry did you learn, in your later years,
No one cares 'bout the planets.
Larry do you know, when there's budget cuts,
NASA will drop the hatchet.

Did you know, you're a baby boy,
By using math and reason.
We calculate your age,
Based on Uranal seasons!

The planets glide, a storm does rise, dead worlds do live again
Your pay does leap, NASA will speak, with praises now and then

Larry, did you know, that you would become
An astronomic diva.
Larry, did you know, that you could predict
the leaving of Bielema!

Did you know that until '18; you'll be in quite the jam.
When Hubble will be replaced; by the bigger Webb Cam

2. Angels We Have Heard on High

Overhead we've heard is high.
50.5 for all things.
Pls whine and in reply.
3rd floor winces from the sting

Oooooooooooooooooooooo, overhead
Where does all the money go?
Oooooooooooooooooooooo, overhead
Seems like there is excess dough.

Come to 3rd and you will see
Upgrades in three fifty one
Come adore on bended knee
Watch movies when all are gone.

Oooooooooooooooooooooo, overhead
Why can't I get furniture?
Oooooooooooooooooooooo, overhead
Maybe carpet for the floor.

How much is a newbie paid?
It's been three years and no raise!
John and Hank please lend your aid
Overhead we then would praise!

Oooooooooooooooooooooo, overhead
Where does all the money go?
Oooooooooooooooooooooo, overhead
Seems like there is excess dough.

3. On Jordan's Bank

In Jordan's CAVE we hear the cry,
It's 1 PM, the briefing's nigh
Sit down and listen, he forsakes
the silent 'f' in Land O' Lakes.

He cannot do a brief today
Because he's watching palm trees sway.
Though GOES-R projects make him roam
The CAVE is always home sweet home.

The NAM and GFS may say
That rain will change to snow some day
One forecast that will verify
The CRAS will keep us warm and dry.

4. Away in a Manger

Away in a bird's nest, atop of Weeks Hall
Three baby red tail'd hawks, curled up in a ball
The parents sit daily, each taking a turn
Eyeballing our camera with skeptic concern.

The babies grow bigger, start flapping their wings
Dead chipmunks and squirrels, the parents they bring
"Recall Walker" the parking lot claims
That's not our sign the website disclaims!

Web cam is a big hit, the server's bogged down
Moved hosting someplace else, these ads make us frown
There's thousands of hits and the video stalls
DoIT please help us, we love those fuzzballs!

5. Oh, Christmas Tree

Oh no it's PEATE, Oh no it's PEATE!
You've stolen all programmers.
Oh no it's PEATE, Oh no it's PEATE!
You've stolen all programmers.

Code monkeys seem so very bright.
Programming so VIIRS cal is right.
Oh no it's PEATE, Oh no it's PEATE!
You've stolen all programmers!

Oh no it's PEATE, Oh no it's PEATE!
You give us such displeasure.
Oh no it's PEATE, Oh no it's PEATE!
Displeasure can't be measured.

Liam in charge of sweatshop mill.
Bielema flees, to Fayetteville.
Oh Arkansas, Oh Arkansas!
You will not get much pleasure.

6. The First Noel

The first "No, EII" Kevin Baggett did say
Was no food at the party - her dad did not pay!
He missed the date for the Union South fest
Liked to claim he was poor, but it's surely in jest

No EII, no EII, no EII, no EII
Try to behave so your Dad does not yell!

The next "No, EII" to my angel did say
She was taking a ball from the bowling lane
It fell to the floor with a powerful thud
Dad's toes were just inches from feeling like crud

No EII, no EII, no EII, no EII
Try to behave so your Dad does not yell!

The last "No, EII", it does give me some pause.
When I try to mix science with Santa Claus.
She shrieks and bucks and sometimes she falls
And, soon you will hear her outside in the hall!

No EII, no EII, no EII, no EII
Try to behave so your Dad does not yell!

7. Hark! The Herald Angels Sing

HR herald Denny sings
Please come to my gatherings
12, 1:30, 3 and 4
Questions welcomed at my door.

Joyful all employees rise
Guidelines for a raise - surprise!
With Act 32 proclaim:
"We might see some dough again!"
HR herald Denny sings
Please come to my gatherings.

Hank calls looking for input
Plan reviews, they need the boot
Flexibilities we need
Not these mins, the plan levied

"I'm not HR" Denny cries
Please pick on some other guy
For example, Tom Demke
Bailed on Choir with Bob Aune.

Hark the Choir, songs we bring,
Bielema bailed, but still we sing!

8. Here Comes Santa Claus

Here comes Bielema, Here comes Beilema
Barry's Bestest Boy
No need for job search, Bret is the Best Bet
Will Bring Badgers Joy

Oblivious to Obama
Wins the conference 'cause the good teams got deeked
Flees the conference
Cause he knows his marketability's peaked.

OH! There goes Bielema, there goes Bielema
Down to Fayetteville
Take your Vegas Trophy Wife
More bennies and more frills.

Ex-pig farmer perfect match for Arkansas Razorback
Best of luck in the SEC,
They'll see the skills you lack!

9. Jingle Bells

Dashing off to work; I should be there on time.
Slave all day I do; just to make a dime.
Taxes on the rise; Ben'fits on decline.
Just promise me a living wage, no longer will I whine!

Oh, Fiscal Cliff, Fiscal Cliff, where're the cuts today?
NASA, NOAA, NSF, which one they will not say!
Fiscal Cliff, Fiscal Cliff, which will take the fall?
Do I have to work all day, and not get paid at all?!

A day or two ago, Obama's on the Hill
John Boehner starts to talk, stock market takes a spill
Our accounts' lean and lank, misfortune is our lot
We're 16 trillion in the tank, we might as well be sots!

Oh, Fiscal Cliff, Fiscal Cliff, where're the cuts today?
NASA, NOAA, NSF, which one they will not say!
Fiscal Cliff, Fiscal Cliff, which will take the fall?
Do I have to work all day, and not get paid at all?!

10. Mele Kalikimaka

I know that William Straka is the first to show,
On a Hail and farewell day.
That's the 'Sconnie greeting given to new folks,
In the land where cheeseheads play.

If Jordan says the day will be warm and bright
We'll head to the roof, where plates fly out of sight
Hails and Farewells are the Space Science way
To say hi or goodbye to you.

Moola from your pocket is the way we fund,
Our Hail and farewell day.
That's the monthly shakedown, when we come to you
And, try to make you pay.

When it's chicken wings or brats, I'll say that's all right
For just chips and dip, then I will hide from sight
Hails and Farewells are the Space Science way
To say hi or goodbye to you.

Why can't Jerry Robaidek bring some wine today
For our hail and farewell day?
It would be nice to drink something than Spotted Cow
To go with our Sundae!

He claims the wine is safe and we won't lose our sight.
It couldn't be any worse than ...say... Miller Light
Hails and Farewells are the Space Science way
To say hi or goodbye...to say hi or goodbye....to say hi or goodbye
to you!
